

## **UCD Clinical Research Centre (CRC)**

The UCD CRC, at UCD School of Medicine is a leading Centre for clinical and translational research. The mission of the UCD CRC is to conduct, support and promote high-quality clinical research that improves clinical practice and patient outcomes. With over 300 ongoing studies, led by 70 Principal Investigators the UCD CRC is delivering impact. Building on our success to date, the UCD CRC will further expand its reach and its commitment to excellence in clinical trials. We now seek to grow our team and invite applications for a number of pivotal roles.

If you have the right experience and want to work in a dynamic environment with local, national and global output impact, we encourage you to apply [here](#) or directly via links below.
