Editing Majors Checklist

Overview

Why edit my majors?

 To ensure that the structure (core/option modules offered as part of a stage) of your major/programme is correct for the next intake of students

Where can I make these changes?

• These changes can be made via the <u>Majors in my School</u> menu on the Curriculum Management System (CMS)

When can I edit majors on the CMS?

 $\circ~$ These changes can be made when the CMS is open for Major edits as per $\underline{\text{CMS}}$ $\underline{\text{Timelines}}$

Who has access to edit majors?

- Staff /Faculty with School-level access to the CMS
- Staff /Faculty with College-level access to the CMS

Responsibility for editing majors may vary according to local arrangements **How do I edit a major structure?**

• For detailed instructions refer to the main Editing Majors user guide

Some important items to look out for when editing your majors:

- Ensure each major has a named Programme Director assigned to it in the CMS
- Be particularly aware of the following sections of the <u>Academic Regulations</u>: 1.12
 & 1.13 (programme specification), 3.23 (minimum elective requirement for undergraduates), 3.25 (provision of additional option places) & 3.6 (student workload). A deviation from these or any other Academic Regulation will require approval of a <u>derogation</u> through UPB

Did You Know

- $\circ~$ When you have completed your edits, you can refer to the <u>Major Structure Review</u> <u>Checklist</u> to help you review the structure of your major
- Visions/Values & Programme Outcomes are edited by the Programme Director linked to the major on the <u>Curriculum Review & Enhancement</u> menu on InfoHub
- Once the relevant intake term has commenced, changes to a structure will require Governing Board approval via a <u>PDARF16 Structure Change Proposal</u> for submission to the Curriculum Team
- Certain minor structure amendments can be made without a PDARF form. Please refer to the <u>Structure Changes to Majors outside CMS Timelines</u> document for further details
