Gradebook Replacement Project

This email has been circulated to: Heads of School, Module Coordinators, Vice Principals for Teaching and Learning, College/School Office Directors, Graduate School Managers, Programme Managers, College/School Office Administrators, Student Advisers, UCD Registry

Dear Colleagues

As you may be aware there have been several enhancements to the grading process in recent months. As we continue to improve the grading process, we will implement a new grade entry system from November 2020. This change is necessary because the current system (Gradebook) is built in Adobe Flash which will be no longer supported by browsers from the end of 2020.

System improvements include;

- More intuitive system
- Less data entry errors
- Enhanced upload functionality

The new system will be accessed through “My Module Grades” on Infohub. Training will be rolled out across all schools from October 2020 which will require your active participation as all final grades for Autumn Trimester 20/21 must be entered into the new system. Additional timeline details will be shared in due course.

Kind Regards,

Karen McHugh
Director of Assessment
