Student Response Rate by Level of Study

Note

Response rates are presented by level of study and include those students who responded to at least one module survey

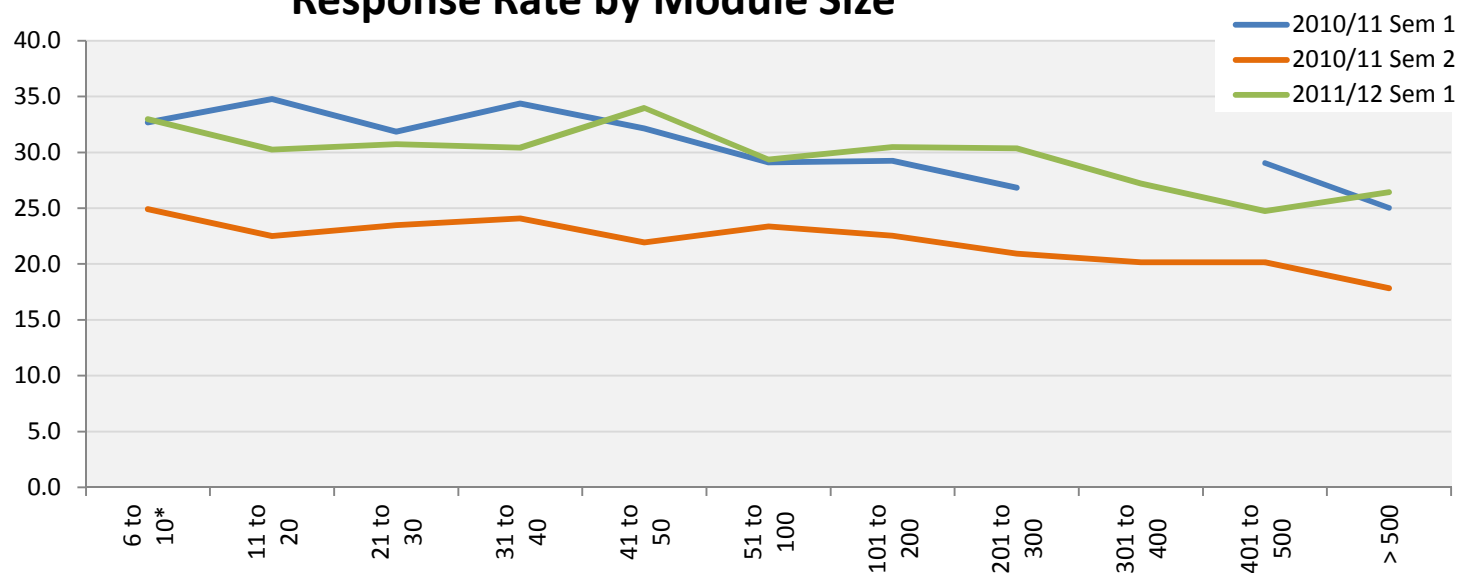

The undergraduate degree group is the largest cohort of students at approximately 14,000 students each semester. In the latest survey this group has the highest response rate at 36.5%

In semester 1 of 2010/11 graduate taught had the highest response rate of 41.9%, this has fallen substantially to 33.9% in Semester 1 of 2011/12

Completion Rate of Responding Students*

* Note: "**Completion rate of responding students**" is the number of modules completed per responding student expressed as a per cent of the total number of modules they were invited to complete.

The chart shows when students respond completion rate declines with the increase in number of modules presented for surveying.
